

PROGRESO NETWORKS (S) PTE LTD

Time Synchronization and Industrial Networking solutions

INTRODUCTION OF PROGRESO NETWORKS

- Established since 2004
- A value-added distributor specialized in Time Synchronization and Industrial Networking solutions for IoT in Southeast Asia.
- Our core competency includes time synchronization with NTP and PTP for enterprise and telecom networks, transportation and industrial applications, and industrial networking solutions.

PRODUCTS AND SOLUTIONS THAT WE PROVIDE ARE:

Time & Synchronization

- Network Time servers for network synchronization
- Time Display Clocks
- Time Audit service for network performance check and compliance

Brands that we carry:

PRODUCTS AND SOLUTIONS THAT WE PROVIDE ARE:

Industrial Ethernet Solutions

- Industrial WiFi solution for outdoor wireless solution
- Industrial Ethernet switches/converters for outdoor infrastructure implementation
- Ethernet accessories: Fiber optic and copper patch cords

Brands that we carry:

ADVANTECH

B+B
SMARTWORX

ACKSYS
COMMUNICATIONS & SYSTEMS

CTS
CONNECTION TECHNOLOGY SYSTEMS

PRODUCTS AND SOLUTIONS THAT WE PROVIDE ARE:

Telecom Access

- Optical Network Multiplexers, modems and converters for Local Area Network and Wide Area Network extension
- Industrial 3G/4G wireless routers for remote voice & video transmission

Brands that we carry:

Managed Voice Solution

- Cloud hosted voice service without the need to maintain own IP PBX

Brand that we carry:

SERVICES

Maintenance Services

- 7x24x24: 7days, 24hours, 4hours response time
- Loaner unit provided to prevent down time if hardware faulty with maintenance contract in place
- Well structured escalation process to ensure logged case will be resolved in the shortest time

Time Sync Audit service

- Ensure timing output at different locations is within synchronization requirement
- Sync Audit service performed using Telco-Grade Test Instrument
- Ensure key reading/parameter meets the requirement of IEEE 1588 PTP Default Profile
- Audit report outline time weaknesses and recommendations for improvement

OTHER SERVICES

Time Sync Audit service for checking health of network to ensure optimal network performance

- Ensure timing output at different locations is within synchronization requirement
- Sync Audit service performed using Telco-Grade Test Instrument
- Ensure key reading/parameter meets the requirement of IEEE 1588 PTP Default Profile
- Audit report outline time weaknesses and recommendations for improvement
